

UX DESIGN INTERNSHIP AT

Role

Design at Brand Guarde has been at the core of our product since its inception. We take great pride in the software we have developed and are continuing to fine tune. As a UX Design Intern, you will collaborate with a team that defines and designs user interfaces, systems, and interactions.

Brand Guarde internships full-time (40 hours/week) for 12 consecutive weeks with start dates in May 2022. Applicants should have at a minimum one quarter/semester remaining after their internship concludes.

You Will

1. Design thoughtful, beautiful, and useful software user interfaces and experiences in a team environment using Figma.
2. Create user-centered designs by considering market analysis, customer feedback, site metrics, and usability findings.
3. Use business requirements, user and market research to assist in developing scenarios, use cases, and high-level requirements.
4. Implement a complete customer onboarding experience for Brand Guarde's proprietary platform.
5. Uphold to the Brand Guarde Core.
6. Pay great attention to details, work efficiently by taking initiative, and have a proactive and disciplined approach in their work.
7. Check in with the Chief Technology and Operations Officers.
8. Engage in meetings with the Brand Guarde Dev Team.

We are looking for

1. An individual currently working towards a Bachelor's or Master's Degree in Design
2. Previous design internship(s) and/or project experience in design
3. Experience working in a collaborative team environment to deliver high-quality design solutions
4. Experience in a variety of design, wire-framing, and prototyping tools, especially Figma
5. Strong organizational skills and attention to detail
6. Excellent communication, presentation, and interpersonal skills

Preferred Additional Qualifications

7. Experience with consumer brand experience design and a understanding of storytelling
8. Visual design expertise demonstrated through mockups and style guides using Figma
9. Ability to extract complex concepts and quickly turn around rigorous flows and mock-ups reflecting a range of options

10. Ability to proficiently present design solutions to stakeholders in design, product management, and engineering
11. Ability to drive the design review cycle and close on design requirements independently
12. Able to use best practices for mobile and web-based information architecture and design, as well as knowledge of usability principles and techniques
